Ver-Mac’s PLT-1000 is a compact, battery powered portable target light. The PLT-1000 features Ver-Mac’s exclusive Nightbrite Technology, which provides a brighter, more environmentally friendly and cost-effective lighting system. The system is quick and easy to set up and does not require a diesel generator to power. Equipped with high performance lithium batteries and fast charging system, the PLT-1000 will perform night after night. The system is ideal for short term on and off-road construction and utility projects, presence lighting, flagging operations, special events and emergency service applications.

**FEATURES AND BENEFITS**

- **Nightbrite Technology** - Innovative exclusive LED fixture design provides increased brightness using less power consumption.
- **Clear and Bright LED Lamp** - Long lasting and durable LED lamp provides targeted lighting with minimal light pollution and reduced glare.
- **Compact Design** - Tripod legs quickly fold for easy set up and storage. Telescoping mast quickly raises to several heights up to 14’ and stores neatly in storage box. Easily roll or carry the PLT-1000 to the desired project location and turn it on.
- **High-Performance Batteries** - Maintenance free high-powered LifePO4 lithium batteries provide long-lasting power with a high cycle life. They are non-toxic, non-contaminating and contain no rare earth metals, making them environmentally friendly.
- **Charging System** - Intelligent LifePO4 600 watt fast charging system charges the batteries in less than 2 hours. Simply plug into an outlet or generator and the LED indicator light will tell you when it is charged.
- **Adjustable Light Settings** - Adjust the brightness of the light to meet your application needs. A fully charged system can run from 10-30 hours depending on the brightness setting.
- **Balloon Light Option** - 4.7 square foot balloon light option provides a softer, no glare lighting solution. The balloon light comes with a light cap to maximize the light emitted from the sides.
- **Eliminate Generator** - Reduce labor to set up by 50% and eliminate fuel and maintenance costs. No fuel emissions and engine noise to harm the environment.
APPLICATIONS
- Construction and Utility
- Presence Lighting
- Flagging Operations
- Special Events
- Emergency Service
- Parking Lot
- Airport
- Mining

DIMENSIONS & WEIGHT
- Operating height: 174 in. (4424 mm)
- Operating presence: 80 in. (2021 mm)
- Travelling length: 21 in. (543 mm)
- Travelling width: 21 in. (548 mm)
- Travelling height: 73 in. (1857 mm)
- Weight (approx.): 90 lb (41 kg)

GENERAL SPECIFICATIONS
- LED lamp: 1 adjustable fixture
- Maximum operation time: 10-30h
- Max charge time: 2h full charge
- Batteries: 44.4 A/h at 25.6V
- Battery charger: 18 amp
- Mast: 14 feet
- 3 legs for trolley stabilization

• 1-year warranty on complete trolleys
• 2-year warranty on electronics manufactured by Ver-Mac
